髮質重建
豐盈飽滿
天然髮手感

專利直髮塑型

卓越功效亮點包括：

髮質重建、強韌、輕身亮澤、零強硬、療後有如天然髮手感。對比傳統直髮後秀髮嚴重受損，每況愈下的情況截然不同。

層次立體展現：

直療後秀髮組織豐盈飽滿、逞圓形狀、立體展現、剪功層次分明。相反傳統直髮流於扁塌，單一平面、線條美感欠奉，彷彿隨身攜戴假髮一樣。

Natural Hair Feeling

Patented straight hair styling

Benefits include

Hair restored, strengthened, shiny and light, with zero stiffness and a natural hair feel after treatment. It's a dramatic change from traditional straightening where hair is severely damaged and deteriorated.

Layers of volume and depth

After straightening, the hair is full, rounded, voluminous and layered. In contrast to traditional straightened hair, which is flat and linear, lacking beauty, like wearing a wig on the go.

Straightening and repairing function is highly enhanced

Traditional hair straightening is mainly for 10% of people who are born with curly hair. The new straightening treatment can deal with natural curly, artificial curly, frizzy, rough, resistive and severely damaged hair, over-dyed and over-permed hair, and people with mixed hair, etc. The hair can be restructured and restored, and at the same time, it can improve and correct flat hair stems, crooked hair roots and inverted hair.
